

CLOUD DISCOVERY

PLAN YOUR JOURNEY WITH A TRUSTED CO-PILOT.

Making the right choice when embarking on a move to public cloud can be the determining factor in successful execution of a digital strategy. We pride ourselves on our methodology and toolset which result in data-driven contextual insights. Our Cloud Discovery team are specialists in delivering executable cloud strategies tailored to our customers. No more guesswork. No wasteful overprovisioning. Just knowledge that you're making the best decisions for tangible business results.

MITIGATE MIGRATION RISKS

We'll detect hidden technical debt, systems and potential operational challenges that could impact a cloud migration.

DISCOVER YOUR OPTIMAL ENVIRONMENT

Leverage a methodology which enables data-driven insights to accurately identify best-fit cloud config, projected costs, and determine your ideal pricing plan.

AUTOMATION & MICROSERVICES

We'll work alongside you to identify opportunities for automation and/or the use of micro-services and platform-services. infrastructure and reserve capacity in the cloud.

IDENTIFY OVER-PROVISIONING

We identify idle compute resources, unused storage and overprovisioned workloads to rightshift, stripping costs. Run 'what if' scenarios to rightsize.

ARCHITECT FOR MULTI-CLOUD STRATEGY

Receive a high level design for a multi-cloud and hybrid-cloud strategy, laying the platform for detailed design and planning.

DELIVER VELOCITY

Benefit from easy-to-consume insights for successful cloud planning, migration, and management based on real business data.

WHAT WE OFFER

EXECUTABLE STRATEGY

We'll provide you with a comprehensive report and analysis of your data with our Cloud Calculator, enabling you to make the right choice of cloud platform the first time.

CONTEXTUALLY AWARE

Not all organisations operate the same, and not all are configured to take advantage of the agility afforded by public cloud. By reviewing your IT management processes we'll provide valuable insight into what you need to make the most of cloud.

CLOUD CO-PILOT

We believe in supporting you and your team, not holding the controls at ransom. With co-pilot support, we work as a collective team, with full access and visibility to the tools we use.

MIGRATION

Our cloud specialists will move your organisation to the cloud, leveraging insights gathered during discovery to deliver you the optimum cloud experience.

CLOUD AGNOSTIC

All major cloud platforms offer different features and benefits. Mapping these to your business needs is part of what we do. As Amazon Web Services (AWS), Google Cloud Platform and Microsoft Azure partners, we are uniquely positioned to assist in this assessment.

CHATOPS

We make it easy for you to contact us, with integrated chatops support acting as a direct line to our team of public cloud specialists. We also offer traditional means of contact.

The Instillery is a leading NZ based public cloud service provider. If you want to get your move to cloud right the first time, engage our team of cloud specialists to provide you the data and context you need to make the best business decisions.
